

EXPORTS TO THE EU

Guidelines n°29

These guidelines describe the export requirements of organic products from countries outside the European Union (**third countries**) to the European Union in accordance with the EU Regulations No.834/2007, No.889/2008 and No.1235/2008

Introduction

EU Organic products may circulate freely within all EU Member States, provided they are produced, processed, imported and marketed in compliance with the EU Regulation No 834/2007 and the related implementation rules.

Should your operation be located in a « **third country** » (i.e outside the European Union), organic products may be exported into the EU, **provided that they meet requirements equivalent to the EU Regulation 834/2007 and its implementation rules**. Details related to them are given further in these guidelines:

The EU Importer will also have to comply with some specific requirements linked with his activity:

- Certification according to **EU Regulation 834/2007** of his import activity by a Control Body
- Notification of his activity to the competent authority of the EU Member state
- Custom declaration of the products as "Organic"
- Creation of his company's profile as importer on TRACES (Trade Control and Expert system) a **web application** provided by the European Commission.

Export rules for products originating in Third Countries

A) Listed equivalent third countries providing equivalent guarantees

(Annex III REC 1235/2008)

Some countries have been recognized by the European Commission as they enforce organic production rules and a control system that are equivalent to those implemented within the EU. This means that some third countries have a national organic regulation equivalent to the European organic regulation.

Those countries are: **Argentina, Australia, Costa Rica, India, Israel, Japan, New Zealand, Switzerland, Tunisia, Canada, the United States of America, Chile and Republic of Korea.**

Yet these equivalences are determined with regard to some conditions listed in **Annex III of REC 1235/2008**. These conditions are described as follows:

- **Categories of products** in a list drawn up as follows:

- A : Unprocessed plant products
- B : Live animals or unprocessed animal products
- C : Unprocessed aquaculture products and algae
- D : Processed agricultural products for use as food
- E : Processed agricultural products for use as feed
- F : Vegetative propagating material and seeds for cultivation

Ecocert

32600 L'Isle Jourdain

Tél. 05 62 07 34 24
www.ecocert.com

- The **origin of products** and ingredients used in food and feed
- **Production standards** enforced in the third country
- The **competent authority** in charge of the control system in the third country
- Name, address and code number of Control bodies accredited to carry out inspections or issue certificates of inspection for import into the EU.
- The duration of inclusion in the list.

The list of recognized third countries and the equivalence criteria are set out in **Annex III** of REC 1235/2008. Please note that the list of third countries with equivalence guarantees is published in the Official Journal of the European Union, this list is regularly updated.

Products originating in these third countries and meeting the equivalence criteria **may be imported into the European Union and marketed as organic products**

- **With a certificate (documentary evidence) issued to the operator according to the concerned national regulation**
- **COI art. 33.2**

In this case, the template of **certificate of inspection (COI)** set out by Annex V of the REC 1235/2008 must refer to **article 33.2 of the REC 834/2007**. The certificate of inspection is issued by the recognized certification body of the operator carrying out the last operation for the purposes of production or preparation.

B) Control bodies recognized for the purpose of equivalence

(Annex IV REC 1235/2008)

The European Commission has drawn up a list of international control bodies recognized as those applying the organic inspection and production rules which are equivalent to the rules in accordance with the EU regulations. (listing set out by **Annex IV of REC 1235/2008 consolidated version and in force since 01 July 2012**).

As a matter of fact, some control bodies have created their own private standard identifying in each third country and for each type of activity (farming, processing and export...) requirements to be met that have been evaluated and approved by the European Commission and deemed as equivalent to the EU Regulation requirements.

ECOCERT SA HAS CREATED ITS OWN STANDARD NAMED THE «ECOCERT ORGANIC STANDARD » (EOS) WHICH HAS BEEN EC-APPROVED AND IS APPLIED IN THE THIRD COUNTRIES RECOGNIZED AS EQUIVALENT TO THE REQUIREMENTS DETAILED BELOW.

Ecocert

SA au capital de 444.400 €
SIREN 380 725 002 RCS AUCH

BP 47 – Lieu-dit Lamothe Ouest
32600 L'Isle Jourdain

Tél. 05 62 07 34 24
www.ecocert.com

For each certification body, the Annex IV of REC 1235/2008 consolidated version provides the following information:

- Name, address of certification body as well as website indicating the operators subject to control and their certification status and the production standard and control measures can be found.
- The list of third countries where the products have their origin for which equivalence is granted: **For Ecocert more than 120 countries listed**
- The code number of the certification body: **for Ecocert: code ISO-BIO-154**
- The concerned **products categories for each country**, drawn up according to the list below:

A : Unprocessed plant products

B : Live animals or unprocessed animal products

C : Unprocessed aquaculture products and algae

D : Processed agricultural products for use as food*

E : Processed agricultural products for use as feed*

F : Vegetative propagating material and seeds for cultivation

*every single ingredient must be recognized as equivalent in other words either produced in the EU or come from an equivalent third country (as mentioned above in point A), or certified by a control body recognized for the purpose of equivalence (point B) (see also scheme No.2 below).

- The duration of the inclusion in the list
- The exceptions: **products in conversion and products originating from a third country listed in Annex III** and covered by the recognition granted to that third country cannot be exported in accordance with this import procedure.

Annex IV of this document lists countries and categories of products per country recognized for Ecocert SA and its associated standard «**Ecocert Organic Standard » (EOS)**.

Should a certified operation be located in a country and for an activity listed in this annex, this means the products may be imported into the EU and marketed as organic:

- **With the certificate (documentary evidence) issued according to the Ecocert Organic Standard (EOS)**
- **COI art. 33.3.**

In this case the template of the **Certificate of inspection (COI)**, set out by Annex V of REC 1235/2008 will refer to **article 33.3 of REC 834/2007** and be issued by the recognized certification body of the operator carrying out the last operation for the purposes of production or preparation.

Certificate of inspection (COI) for each consignment

Whatever the import system applied, a COI is mandatory for custom clearance and should accompany the organic goods for free release into circulation at the European Union point of entry.

The issuance of COI is done through electronic format with the system **TRACES** (*Trade, Control and Expert System*), established by the European Commission. The **original certificate of inspection** shall be a printed and hand-signed copy of the completed electronic certificate in TRACES or, alternatively, a certificate of inspection signed in TRACES with a qualified electronic seal. **Ecocert SA has a qualified electronic seal valid in TRACES for EOS** certified products (XX-BIO-154); and is waiting for a valid qualified e-seal for products certified in Equivalent Third Countries (Annex III of 1235/2008)

The COI shall be issued **before** the goods leaves the Third Country of export or origin.

Consequently, **consignment shall not leave the country of export or origin until the COI has been issued**, otherwise it may result in a refusal by the import country authority to custom clear the consignment as Organic in the EU.

In the event that the products are shipped from the country of export or origin to EU without COI, Ecocert shall not be held liable for such refusal, nor for the direct and/or indirect consequences involved by the loss of the organic status of the products.

A) Application for a certificate of inspection

The exporter should:

- 1- At least **3 working days before the consignment leaves the Third Country of export or origin**, contact Ecocert by e-mail and provide simultaneously the following documents:
 - A duly filled "**COI Request Form**" (template sent by your Ecocert office) or the COI number initiated on TRACES;
 - **Commercial invoice(s)**;
 - **Transaction certificate (TC)** for purchased products from the last producer or processor (if different from the exporter). *Not mandatory if the last producer or processor is Ecocert certified*;
 - *When applicable*: any additional document that has been required to the client beforehand by Ecocert (such as third part analysis results, labels...);
 - *When applicable and if available before departure* **phytosanitary certificate**;
 - If available before departure: **transport document**.

Ecocert

SA au capital de 444.400 €

BP 47 – Lieu-dit Lamothe Ouest
32600 L'Isle Jourdain

Tél. 05 62 07 34 24
www.ecocert.com

- 2- **Send documents** (such as transport document) that were not available before departure to Ecocert the soonest possible, **at the latest 8 days after COI validation** and in any case before custom-clearance.

The steps to follow for your COI issuance are detailed in below **Annex II** of this document.

Please contact the relevant Ecocert team for queries before your first shipment of organic products.

B) Importers and 1st consignees are involved in the COI issuance process

Before the issuance of a COI in TRACES, the importer and the 1st consignee have to **create their own profile and have it validated in TRACES** (by their competent authorities). Therefore, we strongly recommend that you inform all your EU clients about this system, in order for them to get registered in TRACES the soonest. No COI can be issued if the importer and 1st consignee are not registered in the system.

NB: Importers and exporters can initiate the creation of the COI in TRACES!

Importers and exporters have the possibility to initiate the creation of a COI in TRACES. Once the COI is created and “submitted to certification”, it must be validated and signed by the exporter’s Control Body.

For more information, don’t hesitate to ask for our specific Guidelines on TRACES; you can also find information about TRACES online on: [TRACES NT DOCUMENTATION WEBSITE](#)

The Certificate of Inspection template is available in below Annex I of this document.

Definitions

Operator (Article 2d REC 834/07):

Means the natural or legal person responsible for ensuring that the requirements of the regulation are met within the organic business under their control.

Preparation (Article 2i REC 834/07):

Means the operations of preserving and/or processing of organic products, including slaughter and cutting for livestock products and also packaging, labelling and/or alterations made to the labelling concerning the organic production method.

Importer (Article 2c REC 889/08):

Ecocert

SA au capital de 444.400 €
SIREN 380 725 002 RCS AUCH

BP 47 – Lieu-dit Lamothe Ouest
32600 L'Isle Jourdain

Tél. 05 62 07 34 24
www.ecocert.com

Means the natural or legal person within the European Community who presents a consignment for release for free circulation into the European Community, either in person or through a representative.

First consignee (Art 2d REC 889/08)

Means the natural or legal person to whom the imported consignment is delivered and who will receive it for further preparation and/or marketing.

Certificate of inspection (COI) (Art 2(1) REC 1235/08)

Means the certificate of inspection referred to in Article 33(1)(d) of Regulation (EC) No 834/2007 covering one consignment. Template in Annex V of RCE 1235/08.

Exporter on box 4 of COI: (Annex V of RCE 1235/08)

The exporter is the operator performing the last operation for the purposes of preparation as defined in Article 2(i) of R(EC) 834/2007 on the products mentioned in box 13 of COI and sealing the products in appropriate packaging or containers, pursuant to Article 34 of R(EC)889/2008.

Point of entry (Art 2(11) REC 1235/08)

Means the point of release for free circulation

Consignment (Art 2(3) REC 1235/08)

Means a quantity of products under one or more Combined Nomenclature codes, covered by a single certificate of inspection, conveyed by the same means of transport and imported from the same third country.

Verification of the consignment (Art 2(5) REC 1235/08)

Means the verification carried out by the relevant Member State's competent authority, in the framework of the official controls provided for in Regulation (EC) No 882/2004 of the European Parliament and of the Council, of the fulfilment of the requirements of Regulation (EC) No 834/2007, of Regulation (EC) No 889/2008 and of this Regulation through systematic documentary checks, random identity checks and, as appropriate according to its risk assessment, physical checks, prior to the release of the consignment for free circulation into the Union.

Relevant Member States authorities (Art 2(6) REC 1235/08)

Means the customs authority, food safety authority or other authorities designated by the Member States responsible for the verification of the consignments and the endorsement of the certificates of inspection;

Equivalent (Art 2x REC 834/07)

In describing different systems or measures, means that they are capable of meeting the same objectives and principles by applying rules which ensure the same level of assurance of conformity;

ANNEX I : CERTIFICATE OF INSPECTION**FOR IMPORT OF PRODUCTS FROM ORGANIC PRODUCTION INTO THE EUROPEAN UNION**

1. Issuing control body or authority (name, address and code) CB of the Exporter listed in box 4	2. Council Regulation (EC) No 834/2007: — Article 33(2) (for products exported according to the system as described in part II.A of present document) or — Article 33(3) (for products exported according to the system as described in part II.B of present document)												
3. Serial number of the certificate of inspection Automatically assigned by TRACES	4. Exporter (name and address) The exporter is the operator who has performed the last operation of preparation on the lot (including preservation, packaging and/or labelling) and sealed the goods in appropriate packaging or containers. It may be the same operator as the producer or processor.												
5. Producer or processor of the product (name and address) Certified operator(s) who performed the last operation of production or processing on the products in the country of origin (listed in box 7). They may be different from the exporter if this last only buys products and simply packages and labels them before export.	6. Control body or control authority (name, address and code) CB(s) of the producer(s) or processor(s) listed in box 5												
7. Country of origin Country(ies) where the last production/growing or processing occurred	8. Country of export Country where the exporter has performed the last operation of preparation and sealed in packaging or containers												
9. Country of clearance/Point of entry Country and point in EU where the consignment is released for free circulation	10. Country of destination Country of the first consignee identified in box 12												
11. Importer (name, address and EORI number) Certified operator within the EU who presents the consignment for release for free circulation in the Union, either on his own or through a representative	12. First consignee in the Union (name and address) Certified operator within the EU where the consignment is delivered and handled for further preparation and/or marketing												
13. Description of products <table border="0" style="width:100%"> <tr> <td style="width:33%">CN code weight</td> <td style="width:15%">Trade name</td> <td style="width:20%">Number of packages</td> <td style="width:20%">Lot number</td> <td style="width:12%">Net</td> </tr> <tr> <td>Code for the product(s) from the Combined Nomenclature</td> <td></td> <td>(number of boxes, cartons, bags, buckets, ...)</td> <td></td> <td></td> </tr> </table>				CN code weight	Trade name	Number of packages	Lot number	Net	Code for the product(s) from the Combined Nomenclature		(number of boxes, cartons, bags, buckets, ...)		
CN code weight	Trade name	Number of packages	Lot number	Net									
Code for the product(s) from the Combined Nomenclature		(number of boxes, cartons, bags, buckets, ...)											
14. Container number	15. Seal number		16. Total gross weight										
17. Means of transport before point of entry into the Union Mode Identification International transport document

ANNEX II : COI ISSUANCE PROCESS

- According to one of the latest amendments of Regulation (EC) 1235/2008, in force since 3 February 2020, **the certificates of inspection (COI) for EU shall now be issued before the consignment leaves the third country of export or origin**. Therefore, if a COI is issued after departure, the goods may not be cleared through customs as Organic in the EU market.
- Please send your COI request to ECOCERT at least 3 working days before the consignment leaves the Third Country of export and kindly **follow the below process****. If this process is not respected, you expose yourself to the risk that your COI cannot be verified and issued in due time, and that either Ecocert or the European authorities refuse to validate the COI in TRACES for clearance of the batch as organic on the European market.

Send your COI request to ECOCERT by e-mail *[email address to be mentioned by each office]*

1

The earliest and **AT LEAST 3 WORKING DAYS** before the consignment leaves the country of export:
 → Please indicate the estimated time of departure in the e-mail subject

Send a duly filled **“COI Request Form”** or the COI number initiated on TRACES
 +

Send a **copy of the following documents** :

- **Commercial invoice(s)**
- Transaction certificate **(TC) for purchased products** from the last producer or processor (if different from the exporter). Not mandatory if the last producer or processor is ECOCERT certified.
- When applicable: Any additional document that has been required to the client beforehand by Ecocert (such as sampling at consignment, labels...)
- When applicable and if available before departure: **phytosanitary certificate**
- If available before departure: **transport document**

Please note that all data necessary to complete box 1 to box 16 of COI are requested.

2

Review of your request

If your application is incomplete or mistaken, you run the risk to extend processing time, which compromises the issuance of COI before the departure of the goods.

3

Issuance and Validation of the COI in TRACES by ECOCERT

For COI that are electronically signed with a **qualified electronic seal**, the 'original' is on TRACES directly, and no paper document will be dispatched. A pdf copy of the COI (downloaded from TRACES) can be emailed to you.

Once the COI is validated by ECOCERT, the products may be shipped to the EU.

4

Send your definitive transport document(s) (mandatory)

+any other missing document when applicable (such as Phytosanitary Certificate)

As soon as possible, **at the latest 8 days after COI validation**, and in any case before customs clearance. The COI may be canceled if the document is not provided on time or is not compliant.

5

Review of the original document(s) and completion of COI by Ecocert

Boxes 13 to 17 of COI must be duly completed in TRACES
 Original Transport document has to be uploaded in TRACES
 Original updated COI is only visible in TRACES directly.
